

2 to 12 independent displays from a single computer workstation. Move your mouse across ALL displays for total control over your working environment.

QuadStation Systems

Professional Multi-Display Workstations

QuadStation-3

The Days of Working on a Single Display Computer are Over

We are currently in midst of a technological paradigm shift as businesses across all sectors are realizing the importance of multi display computing in the workplace.

In this age of information overload, serious multi-tasking tools and skills are a critical component of any business. It is now more important than ever to be as streamlined and efficient as you can be, so you get the most out of your time during each workday.

Increase Productivity

To create a more effective workspace, the first step is to increase the efficiency your equipment. By replacing your current single task oriented workstation with a multi-display **QuadStation**, you will see an immediate improvement in performance and multi-tasking efficiency.

Key Benefits

- Systems available in **2-12** displays
- Ready for work out of the box
- Mouse moves across all displays
- Professional, multimedia or tradeshows
- Span content across multiple displays
- Extremely quiet

Not Just an Ordinary Computer

There is nothing "ordinary" about these unique systems. QuadStations are designed specifically to maximize power and performance on every level.

Nothing is ever sacrificed in a QuadStation as we strive to engineer the most powerful and reliable multi display computer systems on the planet.

FRD Drive = Built in Protection

Every QuadStation comes standard with TWO hard drives. The main System drive, and a very unique second drive called an **FRD** drive (*Factory Restore Drive*).

This is a second completely bootable hard drive that is present in your QuadStation. In the event of a hard drive or software issue of any kind the FRD has you covered. Simply connect the FRD drive (with our free assistance if needed) and your system will be restored back to 'factory state' in literally minutes!

Complete Solutions

We also offer a complete line of LCD Monitors and Mounts for a turnkey setup.

Combine different style mounts for nearly any mounting configuration.

Shipping is Always Free

Purchase any QuadStation system and we will cover the shipping anywhere in the continental US. Blind drop shipping is also available.

**We Ship
Worldwide!**
